

Checklist project proposal to FaBIO

<Title of the project>

<PI>

1. DESCRIPTION OF THE PROPOSED PROJECT

1.1 Objectives

Evaluation: 1 = very good, ..., 6 = insufficient

	1	2	3	4	5	6
Goals clearly described						
Feasibility: goals realistic						
Feasibility: expected results realistic						
Calculated sample size realistic to reach						
Planned outcome sufficient in relation to the efforts of the project						

1.2 Progress beyond state of the art and own previous work

	1	2	3	4	5	6
Progress beyond state of the art						
Experience of the applicant in the field						
Availability of reliable data / preliminary work on the subject						

1.3 Methodology

	1	2	3	4	5	6
Methods clearly described						
Methods suitable						
Methodical approach innovative						
Generation of reliable data						
Statistical analysis plan convincing						

2. RESOURCES REQUIRED

	Yes	No
Required data and/or material available at the KKNMS		

	1	2	3	4	5	6
Economical use of KKNMS biomaterial						
Labor and time effort of the KKNMS minimal						

3. WORK PLAN

	1	2	3	4	5	6
Work plan realistic						

	Yes	No
Reports to the KKNMS included		

4. CO-OPERATION WITH THE KKNMS

	1	2	3	4	5	6
Benefit of the cooperation for the KKNMS						
Benefit of the cooperation for the applicant						

5. DISSEMINATION

	1	2	3	4	5	6
Benefit of the dissemination of results for the MS community						
Benefit of the dissemination of results for the KKNMS						
High impact publication expected						

6. FINANCES

	Yes	No
Co-financing by industry		

	Yes	No
Industry support less than 33%		
Independence of investigators ensured		
Terms and conditions of the financial commitment available		

	1	2	3	4	5	6
Plan of resources required realistic						

7. REFERENCES

	1	2	3	4	5	6
High impact publications on the subject of the project of the PI and Co-PIs
